

Colouring fun

Your car seat helps keep you safe. It will change as you grow so your parents will need to make sure that you're in the right seat and that it is fitted properly.

Colour in this picture of two friends going on a trip.

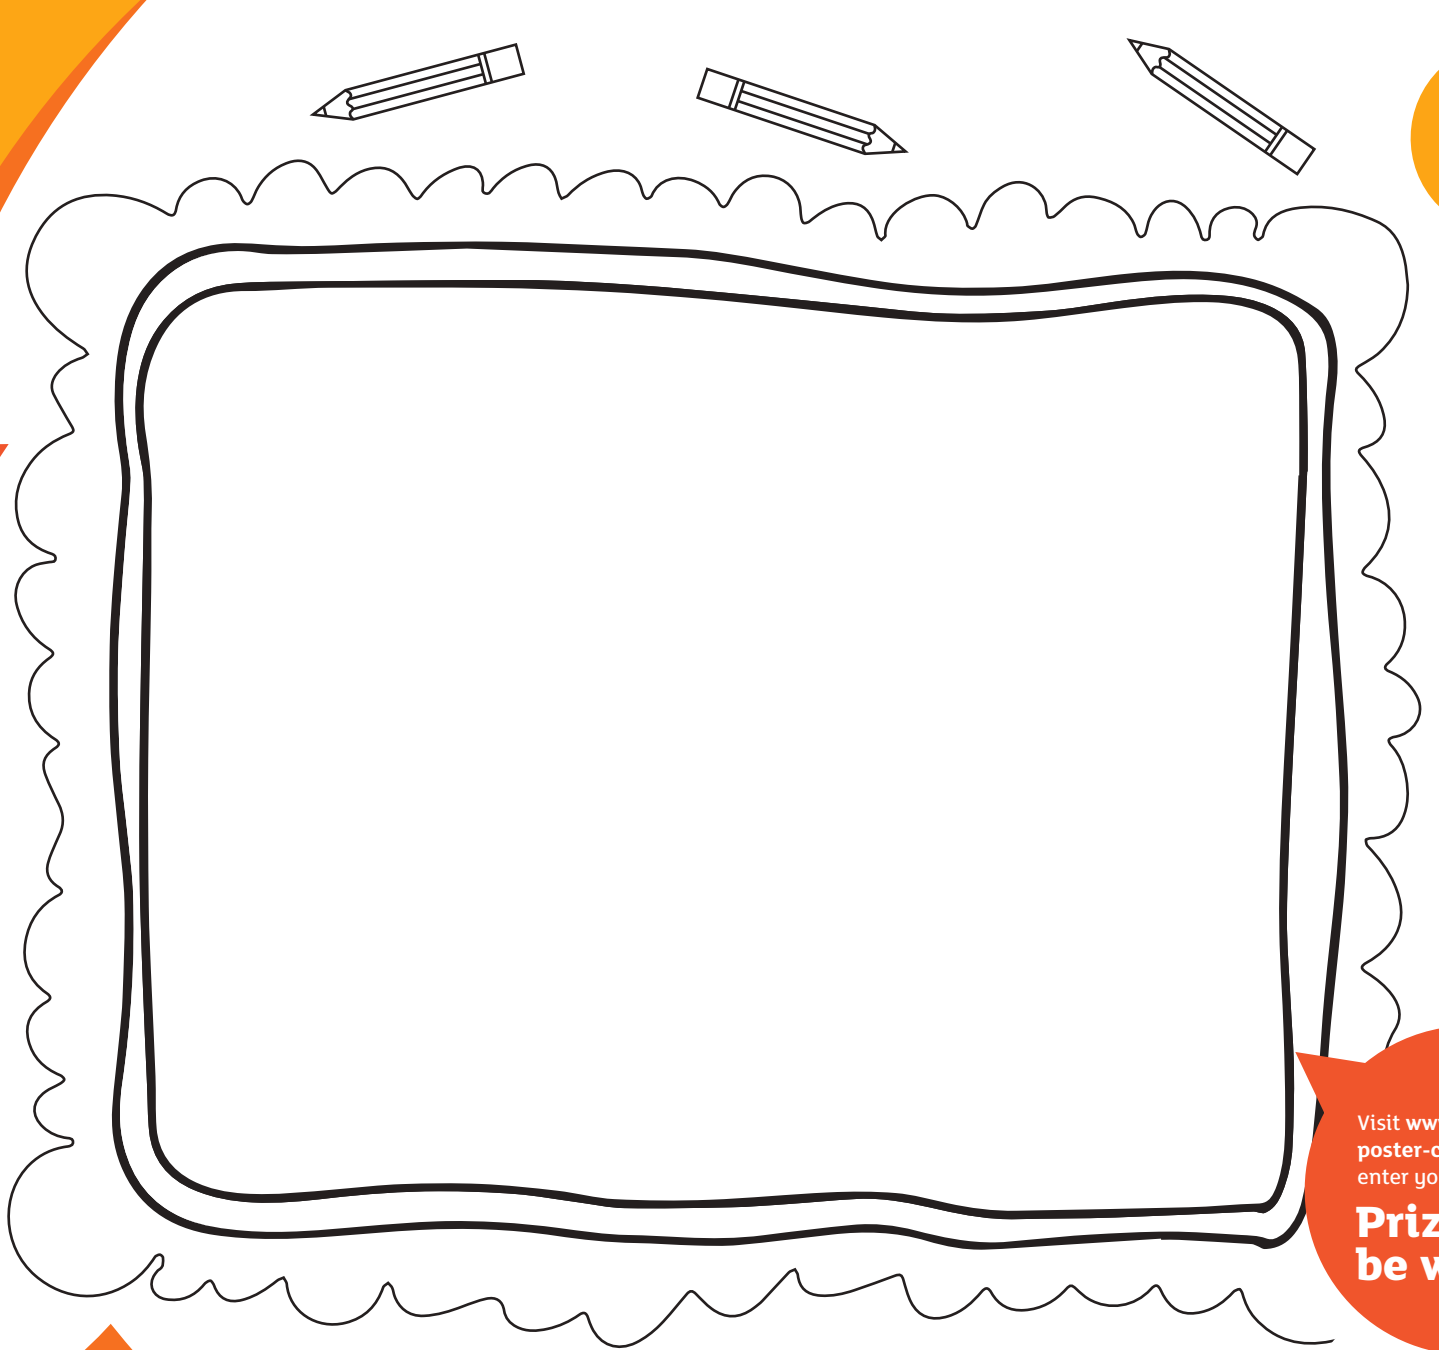

WIN

Poster competition

Every year lots of children have to go to hospital because they've taken medicine that wasn't meant for them. Grown-ups should keep medicine out of reach of young children.

Can you use this space to design a poster to help grown-ups remember this?

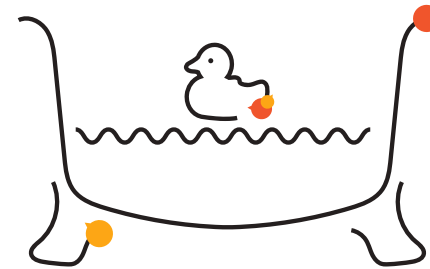

Visit www.ropsa.com/poster-competition to enter your design
